PRECAUTIONARY MEASURES AGAINST COVID-19

In view of the current Covid-19 situation, we have implemented the following precautionary measures with immediate effect:

- All visitors must undergo temperature screenings at our premises. Anyone with a temperature of 38° Celsius and/or display respiratory symptoms (e.g. cough, difficulty in breathing) will not be allowed entry to our premises.
- All visitors are required to fill out a travel and health declaration form. Please note that your data is secure and will be collected for contact tracing purposes only.

Please allow time for temperature screening and the completion of the health declaration form.

The safety and wellbeing of our employees, visitors and communities remain our utmost priority and we thank you for your cooperation and understanding.

Thank you.
